Summary

Results-driven B.Tech (Information Technology) graduate with strong expertise in Full stack development, including React.js, Node.js, Express.js, and MongoDB. Proficient in JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, and Bootstrap, with hands-on experience in building responsive Dynamic Web Application, developing RESTful APIs, and creating scalable component-based applications. with a quick learning ability and strong problem-solving mindset. Eager to contribute to real-world full-stack projects in a professional software development environment.

Skills

language: Java, Core Python, JavaScript,, HTML5

Frontend : React.js, Redux, CSS, JavaScript, JQueryAjax, Html5

Backend: Node.JS, Express.js, Mongoddb, RestfulAPi

Framework: React.js, Express.js, Tailwind, Bootstrap

Database: MySQL, MongoDB

Cloud DevOps: Docker, Git, GitHub, CI/CD PipeLine, Kubernetes

Tools: Postman, Thunder-Client, Canva, PhotoShop VScode

Training

Mern Full Stack

Purseing

Ducat The IT Training School (Regular)

Sector 63, Noida, Uttar Pradesh

- Built responsive web application using react.js, redux, JavaScript (ES6+), HTML5, CSS, Tailwind CSS, Bootstrap, jQuery Ajax
- Currently working on backend development using Node.js, Express.js, MongoDB Restful APIs following Git-based modular coding Practices.

Projects

Weather Application Report | *HTML,CSS,JavaScript,React.JS,api*

February 2026 – March 2026

- **Develop an Interactive Weather Application using ReactJS Framework.**The developed application will provide real-time weather information to the user for the city they have searched.
- If the user searches, for the wrong city, an Error message is also displayed to the user, stating that the searched city is not found
- We have used Open Weather Map API which provides us with access to weather data from around the world. We have fetched the weather information for various locations.

Fitness web Application | *React.js, Nodejs, Expressjs, Email-Functionality*

February 2025 – March 2025

- Developed a responsive fitness web application using React.js for the frontend and Node.js with Express.js for the backend.
- Implemented dynamic UI components, smooth navigation, and a modern user interface to enhance user engagement. Integrated email functionality using backend services to send user inquiries and automated responses. Designed RESTful APIs for efficient client-server communication and ensured scalability and performance of the application.

Awards & Certifications

- **Delta (2024):** Completed 8 practical case studies involving SQL, data cleaning, dashboards, and presentations.
- **Final Year Project – 2025, Sanskriti University:** Library Management System (LMS) built with Python and Sql is a Software application manual library operations like tracking book inventory, managing member records.

Education

Bachelors of Technology Computer Science and Engineering

Graduated: 2025

Sanskriti university, mathura

CGPA: 6.54 / 10

Diploma Computer Science and Engineering—Board of Technical Education (BTUP)

2022

PK Polytechnic, Mathura

Percentage: 73.0
